A still life arrangement of glassware and flowers on a tray. The scene is set against a window with sheer white curtains and dark grey drapes. On a light-colored tray, there are several pieces of clear glassware: a large faceted crystal sphere, a goblet, two candlesticks with tiered bases, and a tall, slender candlestick. To the right, a white ceramic vase holds a bouquet of vibrant purple orchids. The lighting is soft and natural, highlighting the textures and reflections of the glass and fabric.
