**GOLDEN GLOW** The black painted dining table comfortably seats eight and can also be set up as a buffet for large family gatherings. We had the inside of the drum shade painted a show-stopping gold to cast a warm glow.

## the SPACE

Michelle and Chad's dining room and office.

## the CHALLENGE

To take this young couple's little-used dining and front rooms from furnished (the two-person patio set doesn't count!) to finished.

## the RESULT

A casually formal dining room with seating for eight, and an office that's as beautiful as it is functional.

### TWO ROOMS, ONE PALETTE

Dramatic touches of black, like the giant drum shade over the dining table and the black-and-white patterned drapes in the office, link these two main-floor rooms together.
